Information Disclosure Statement

1. The references cited in the Search Report from the EPO have been considered. It appears the 1449 listing these references was attached to the Office Action mailed 21 September 2004, but it is not in the current application file. It was likely misplaced when the paper file was scanned to make the current electronic file. To expedite the case, an IDS listing the references cited in the EPO Search Report is attached hereto. The German references cited on the IDS are already apart of the application file, so new copies are not being sent to the applicant. If there are additional references listed on the missing 1449, applicant will need to resubmit the form if applicant wishes them to appear on the issued patent.

Drawings

2. The drawings received on 04 September 2004 are acceptable.
